

2026 EOCP Election

Administrator Position

Anthony Shaw

Biography:

Anthony serves as the Superintendent of Liquid Waste Services, Sewer & Drainage Field Services with Metro Vancouver and is a candidate for the EOCP Board. He is an accomplished EOCP-certified water and wastewater professional with over 28 years of progressive experience in field operations, civil maintenance, and infrastructure management.

Throughout his career, Anthony has led a broad range of projects, initiatives, and operational programs within Metro Vancouver Liquid Waste Services, while providing strategic leadership across Construction, Flushing, Safety, Planning, Drainage, Civil Maintenance and Employee Development & Training. He has held several key

leadership roles, including numerous Superintendent roles, Supervisor of Civil Maintenance, Supervisor of Field Operations, and Supervisor of Flushing.

Anthony's public sector experience includes leadership and consulting roles with the City of Vancouver, the City of Richmond, Kwantlen Polytechnic University and The Dragonetti Group. He has played a significant role in implementing advanced wastewater technologies that have enhanced system performance, improved conveyance, and strengthened regulatory compliance.

Known for building high-performing teams, Anthony excels at navigating complex operational challenges while fostering a culture of accountability and excellence. He brings extensive expertise in asset management, capital project delivery, budget oversight, and workforce leadership. A results-driven professional, he is widely respected for his ability to optimize performance, align processes, and build trust across all levels of an organization.

Values Statement

As a candidate for the EOCP Board in the Administrator category, I bring nearly 30 years of experience in water and wastewater operations within local government, supported by strong leadership, governance, and operational expertise.

As Superintendent with Metro Vancouver, I oversee critical infrastructure, regulatory compliance, and service delivery. I offer expertise in asset management, budgeting, policy alignment, and workforce leadership, enabling practical and effective decision-making. I am committed to advancing EOCP's mandate through certification excellence, stakeholder engagement, and continuous improvement.

I will provide a balanced, informed perspective to support public health, environmental protection, and the future of the water and wastewater profession.

What Interests you about this Position as a Director on the EOCP Board?

I am interested in serving the EOCP Board because it provides opportunity to contribute meaningfully to the advancement of the water and wastewater profession and to support the continued protection of public health and the environment. I understand the critical role that certification, training, and professional standards play in ensuring safe and reliable service delivery.

This position aligns with my commitment to strengthening workforce development, supporting operators, and promoting excellence across the industry. I am particularly interested in contributing to strategic decision-making that enhances certification programs, fosters industry engagement, and addresses emerging challenges such as aging infrastructure, regulatory demands, and evolving technologies.

Serving on the Board would allow me to bring both operational insight and administrative perspective to support balanced, informed governance. I am motivated to collaborate with fellow board members and stakeholders to ensure EOCP continues to provide value, maintain high standards, and adapt to the future needs of the profession.

What are the most important functions of a Director of the EOCP Board?

The most important functions of a Director for the EOCP are to support the organization's mission, ensure effective governance, and actively engage with the Water/ Wastewater industry. The Director(s) is responsible for committing to EOCP's mission of protecting human health and the environment by improving operator knowledge and skills. They must understand and follow governance requirements, including the constitution, bylaws, and policies, and participate fully in board meetings, strategic planning, and required training.

Directors play a key role in decision-making and oversight, contributing through committee or task force work and applying strategic, financial, and governance knowledge. They must also act as ambassadors for EOCP, promoting its work in the industry and community. Engagement with stakeholders is critical: Director(s) are expected to visit water and wastewater facilities, build relationships with operators, and relay industry issues to the CEO. Participation in events such as the Annual Tradeshow further strengthens this connection.

Overall, the role combines governance, strategic leadership, and industry engagement to advance EOCP's objectives and support the professional development of Water and Wastewater operators.
